

(d) *Additional grade, size or other quality regulation.* The Board may recommend to the Secretary additional grade, size or other quality regulations, and may also recommend different regulations for different market destinations. If the Secretary finds on the basis of such recommendation or other information that such additional regulations would tend to effectuate the declared policy of the Act, he or she shall establish such regulations.

(e) *Minimum requirements for reserve.* The Board, with the approval of the Secretary, may specify the minimum kernel content and related requirements for any lot of walnuts acceptable for disposition for credit against a reserve obligation: *Provided*, That reserve walnuts exported must meet the requirements of paragraph (a) of this section if inshell, or paragraph (b) of this section if shelled.

[27 FR 9094, Sept. 13, 1962, as amended at 39 FR 35330, Oct. 1, 1974; 41 FR 31543, July 29, 1976; 73 FR 11339, Mar. 3, 2008]

§ 984.51 Inspection and certification of inshell and shelled walnuts.

(a) Before or upon handling of any walnuts for use as free or reserve walnuts, each handler at his or her own expense shall cause such walnuts to be inspected to determine whether they meet the then applicable grade and size regulations. Such inspection shall be performed by the inspection service or services designated by the Board with the approval of the Secretary; *Provided*, That if more than one inspection service is designated, the functions performed by each service shall be separate, and shall not duplicate each other. Handlers shall obtain a certificate for each inspection and cause a copy of each certificate issued by the inspection service to be furnished to the Board. Each certificate shall show the identity of the handler, quantity of walnuts, the date of inspection, and for inshell walnuts the grade and size of such walnuts as set forth in the United States Standards for Walnuts (*Juglans regia*) in the Shell. Certificates covering reserve shelled walnuts for export shall also show the grade, size, and color of such walnuts as set forth in the United States Standards for Shelled Walnuts (*Juglans regia*). The

Board, with the approval of the Secretary, may prescribe procedures for the administration of this provision.

(b) Inshell merchantable walnuts certified shall be converted to the kernelweight equivalent at 45 percent of their inshell weight. This conversion percentage may be changed by the Board with the approval of the Secretary.

(c) Upon inspection, all walnuts for use as free or reserve walnuts shall be identified by tags, stamps, or other means of identification prescribed by the Board and affixed to the container by the handler under the supervision of the Board or of a designated inspector and such identification shall not be altered or removed except as directed by the Board. The assessment requirements in § 984.69 shall be incurred at the time of certification.

(d) Whenever the Board determines that the length of time in storage or conditions of storage of any lot of merchantable walnuts which has been previously inspected have been or are such as normally to cause deterioration, such lot of walnuts shall be reinspected at the handler's expense and recertified as merchantable prior to shipment.

[39 FR 35330, Oct. 1, 1974, as amended at 41 FR 31543, July 29, 1976; 73 FR 11339, Mar. 3, 2008]

§ 984.52 Processing of shelled walnuts.

(a) No handler shall slice, chop, grind, or in any manner change the form of shelled walnuts unless such walnuts have been certified as merchantable or unless such walnuts meet quality regulations established under § 984.50(d) if such regulations are in effect.

(b) Any lot of shelled walnuts which, upon inspection, fails to meet the minimum standard effective pursuant to § 984.50 solely due to excess shriveling may be certified for processing provided that the total amount of shrivel does not exceed 20 percent, by weight, of the lot. All such walnuts must be reinspected after processing and shall be certified as merchantable if the processed material meets the effective minimum standard. The provisions of this paragraph may be modified by the Secretary, upon recommendation of the Board or other information.

§ 984.54

7 CFR Ch. IX (1–1–11 Edition)

(c) The Board shall establish such procedures as are necessary to insure that all such walnuts are inspected prior to being placed into the current of commerce.

[39 FR 35330, Oct. 1, 1974, as amended at 73 FR 11339, Mar. 3, 2008]

RESERVE WALNUTS

§ 984.54 Establishment of obligation.

(a) *Reserve obligation.* Whenever free and reserve percentages are in effect for a marketing year, each handler shall withhold a kernelweight of certified merchantable walnuts equal to a quantity derived by the application of the reserve percentage to the kernelweight of merchantable walnuts certified. The kernelweight of certified merchantable walnuts which handlers are required to withhold shall be the “reserve obligation.” The walnuts handled for use as free walnuts by any handler in accordance with the provisions of this part shall be deemed to be that handler’s quota fixed by the Secretary within the meaning of section 8(a)(5) of the act.

(b) *Holding requirements.* Each handler shall at all times hold in his possession or under his control in proper storage the kernelweight of certified merchantable walnuts necessary to meet his reserve obligation less:

(1) Any quantity which was disposed of by him pursuant to § 984.56; and

(2) Any quantity for which he is otherwise relieved by the Board of responsibility to so hold walnuts.

[41 FR 31543, July 29, 1976]

§ 984.56 Disposition of reserve walnuts.

(a) *General.* The Board shall have power and authority to sell or dispose of any and all reserve walnuts withheld upon the best terms and at the highest returns obtainable consistent with the ultimate complete disposition of reserve, subject to all conditions of this section. The Board may dispose of reserve walnuts through handlers acting as agents of the Board under the terms and conditions specified by the Board.

(b) *Export.* The Board may export or authorize the disposition in export to the destinations outside the United States, Puerto Rico, and the Canal

Zone, the quantity of reserve walnuts permitted to be exported by the export percentage establishment pursuant to § 984.49. Reserve walnuts may be exported by any handler as an agent of the Board under the terms and conditions specified by the Board.

(c) *Pooling.* At any time during the marketing year a handler may deliver reserve walnuts and any substandard walnuts meeting the minimum kernel content requirements effective pursuant to § 984.50(e) to the Board for pooling and crediting against his reserve obligation. Any reserve walnuts that the handler as agent of the Board has not disposed of by the end of the marketing year shall thereafter be delivered to the Board for pooling on demand. The Board shall dispose of these walnuts for use in the following outlets: Government agencies, charitable institutions, poultry or animal feed, walnut oil or other markets non-competitive with markets for merchantable free walnuts. The Board may rent and operate or arrange the use of facilities for storage and disposition of reserve walnuts delivered to it.

(d) *Crediting.* The kernelweight of walnuts disposed of in accordance with this section shall be credited to the handler’s reserve obligation. At any time during the marketing year, upon a handler’s written request, the Board shall transfer part or all of the handler’s credit in excess of his reserve obligation to any handler he designates.

(e) *Pool proceeds.* The proceeds remaining after the payment of all expenses incurred by the Board in receiving, holding, and disposing of pooled walnuts shall be distributed pro rata by the Board to each handler in proportion to his contribution thereto, measured in kernelweight, or such other basis as the Board may adopt with the approval of the Secretary.

(f) *Rules and regulations.* The Board, with the approval of the Secretary, may prescribe such rules and regulations as are necessary to carry out the provisions of this section.

[41 FR 31544, July 29, 1976]

§ 984.59 Interhandler transfers.

For the purposes of this part, transfer means the sale of inshell and
